

MINILAND® Activity

Find these famous landmarks made from LEGO in MINILAND. Can you name them? Take a look and discuss how they have changed.

Landmark 1

What is it called?

Where is it?.....

How has it changed?.....

Landmark 2

What is it called?

Where is it?.....

How has it changed?.....

Landmark 3

What is it called?

Where is it?.....

How has it changed?.....

Earthquake Table Activity

Design a structure you think could withstand an earthquake. Draw it in the box below then create it in bricks on the earthquake tables. Can it stay up for 20 seconds?

A large, empty rectangular box with a black border, intended for drawing a structure designed to withstand an earthquake.

Space Mission Activity

Use this storyboard template in class before or during your visit to create a Space Mission themed story. You can then use the pictures to build your story with LEGO at the build tables or using the stop motion animation stations. Remember to think about your introduction, body and end. Consider the who, what, where, when, why and how.
